➤ **13-15 Navigating the American Carbon World**, Renaissance Hollywood Hotel, Los Angeles, CA Navigating the American Carbon

World (NACW) has earned the distinction of being the most important carbon event in North America. It is known for convening thought leaders, innovators, pioneers and policy makers and providing the most comprehensive analyses of pressing issues in the carbon world. Attendees will hear and discuss fresh perspectives and ideas on topics such as: Implementation of California's landmark climate change and energy bill, AB 32; the status of WCI and development of its cap-and-trade program; and up-to-date information on offset credit supply and trends. **For more information, please visit [www.nacw2011.org](http://www.nacw2011.org)**

➤ **14-16 ASCE (American Society of Civil Engineers) SEI 2011 Structures Congress**, Green Valley Ranch, Resort & Spa, in Las Vegas, Nev. This year's Congress consists of 10 concurrent technical tracks that focus on the theme: "*Don't Gamble on your Future - Come to the Structures 2011 Congress.*" The Congress will demonstrate what is redefining structural engineering in the areas of bridge and transportation structures, buildings, and advances in research. You will exchange ideas with your peers and find out how their company has adapted to changes in today's global economy. **For more information, visit [www.asce.org](http://www.asce.org)**
