

## **March**

➤ **2-3 Mitigating Disaster Design and Construction Renaissance** Dupont Circle Hotel, Washington DC The risks posed to the built environment demonstrate the need to increase the visibility of disaster mitigation issues, and develop better design and construction practices and techniques and ensure that buildings and infrastructure are made more resilient and respond better when disaster strikes. This demands a fundamental shift in priorities among federal, state and local officials in how they view infrastructure threats. **For more information, visit [construction.com](http://construction.com)**

➤ **10-12 CSDA (Concrete Sawing & Drilling Association) 39<sup>th</sup> Annual Convention and Tech Fair**, Hyatt Regency Coconut Point Resort & Spa, Bonita Springs, Fla.
